

BRIEF SUMMARY OF THE INVENTION

On page 4, the paragraph beginning with "BRIEF DESCRIPTION" and ending with "THE DRAWINGS", please amend the paragraph as follows:

BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWINGS

On pages 5, the paragraph beginning with "The above object," and ending with "drawings, in which:", please amend the paragraph as follows:

The above object, and other features and advantages of the present invention will become more apparent after a reading of the following detailed description when taken in conjunction with the drawings, ~~in which:~~

On page 5, the paragraph beginning with "Fig. 1 is a" and ending with "invention; and", please amend the paragraph as follows:

Fig. 1 is a cross-sectional view illustrating an preferred embodiment according to the present invention; ~~and,~~

On page 5, the paragraph beginning with "DISCLOSURE OF" and ending with "PREFERRED EMBODIMENTS", please substitute as follows:

~~DISCLOSURE~~ DETAILED DESCRIPTION OF THE INVENTION ~~PREFERRED EMBODIMENTS~~

IN THE ABSTRACT

On page 12, the paragraph beginning with "Disclosed is a" and ending with "having a soft feeling." please amend the paragraph as follows:

~~Disclosed is a~~ A cloth structure having waterproof and moisture-permeable properties for waders, which is treated to be waterproof so as to prevent outside water from passing through the wader, but

thermally insulating and breathable so as to permit water vapor from the inside to be eliminated while being stretchable in each direction and possessing a soft feeling, thereby providing a good wearing feeling for the wearer without impeding the wearer's activity. The waterproof and moisture-permeable cloth structure for a wader includes an outer cloth layer of a material freely stretchable in each direction, ~~selected from a group consisting of lycra jersey, nylon jersey and polyester jersey;~~ a cloth layer of a waterproof and moisture-permeable material ~~made of a rubber or vinyl waterproof material~~ having a plurality of holes therein ~~and a cloth material treated with a coating of polyurethane resin having waterproof and moisture-permeable properties so as to enhance the breathability,~~ whereby precipitation or moisture can be eliminated smoothly, and an inner cloth layer of a reticular lining material, ~~which is woven of stretchable filament so as to be stretchable in each direction and having a soft feeling.~~
